

ADITYA SRIVASTAVA

Java Full Stack Developer

+91 9044016652 aditya.srivastava1409@gmail.com Lucknow, Uttar Pradesh
LinkedIn GitHub HackerRank LeetCode

PROFESSIONAL SUMMARY

Results-oriented Computer Science undergraduate with strong expertise in Java Full Stack Development, including Java and Spring Boot backend systems and React.js frontend applications. Experienced in designing scalable RESTful APIs and AI-integrated applications. Skilled in building clean, maintainable, and production-ready systems in Agile environments.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

Shri Ramswaroop Memorial College of Engineering and Management

Lucknow, India

CGPA: 7.14

Relevant Coursework: Java Programming, Data Structures & Algorithms, Database Management Systems, Operating Systems, Object-Oriented Programming, Software Engineering, System Design

EXPERIENCE

Java Developer Intern

May 2025 – July 2025

Cloudcredits Technologies

Remote

- Architected and deployed Java and Spring Boot backend services supporting 1,000+ concurrent users with high availability.
- Designed and implemented 12 RESTful API endpoints enabling seamless frontend integration and improved data accessibility.
- Developed JUnit test suites achieving 90% code coverage, reducing pre-production defects by 15%.
- Contributed to Agile sprint cycles, code reviews, and performance optimizations improving application efficiency by 10%.
- Collaborated with frontend teams to resolve service-layer bottlenecks and improve API response time across critical endpoints.

PROJECTS

AI-Based Code Analyzer – CodeSensei

Java, Spring Boot, Google AI Studio API, JavaScript, PostgreSQL

- Developed a full-stack code analysis tool detecting bugs, code smells, and performance issues using modular architecture.
- Integrated Google AI Studio API to generate contextual insights, reducing developer code review time by 25%.
- Built REST APIs and PostgreSQL persistence layer to track and analyze code quality improvements over time.

AI-Based Resume Analyzer

React.js, Spring Boot, Node.js, Google AI Studio API, MySQL

- Built a full-stack web application to analyze resumes for structure, keyword optimization, and job fit scoring.
- Designed RESTful APIs integrated with a responsive React.js frontend achieving sub-second response time.
- Served 500+ users and achieved 40% week-over-week growth through efficient feature delivery.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, C#

Backend: Spring Boot, Spring Security, Hibernate, J2EE, Node.js, REST APIs

Frontend: React.js, HTML, CSS

Databases: MySQL, PostgreSQL

Testing & DevOps: JUnit, Docker, Git, GitHub, Microsoft Azure

Messaging: Apache Kafka

AI / APIs: Google AI Studio API, Gemini API, NLP

Core Concepts: Data Structures & Algorithms, OOP, System Design, Agile, Debugging

ACHIEVEMENTS & ACTIVITIES

- HackerRank 4-Star (Problem Solving) demonstrating strong data structures and algorithmic skills.
- Mentored 15+ students in Data Structures & Algorithms, improving coding proficiency and problem-solving ability.
- Completed Google Gen AI Study Jam (2024) and applied LLM concepts in real-world AI-powered applications.
